McGraw-Hill Education - Europe, United States, 2015. Hardback. Book Condition: New. 231 x 160 mm. Language: English . Brand New Book. As organizations strive to do more with less, many are turning to Lean methodology, which is based on the same techniques that propelled the legendary turnaround of Japan's industrial sector after World War II. Their testimony provides a goldmine of practical advice for managers in Lean and non-Lean organizations alike as they share their unique personal insights on topics such as: Leading and empowering people. Building transparency and trust. Tuning into the customer experience. Aligning strategic direction with day-to-day operations. Instilling a corporate-wide culture that promotes safety and quality. Creating a learning organization Thoughtful, sometimes brutally frank, these leaders challenge many of the sacred cows of traditional business, such as standard cost accounting, hierarchical management, emphasis on large batches, and our obsession with data and computers. Citing numerous examples from their experience,...
