Brand New Book ***** Print on Demand *****.This Little Book is a collection of suggestions and guidance to help a new writer through the process of writing the first draft. It assumes that you have done all the preparation and you are now ready to start the first draft of your novel or book. This book will tell you how to use your outline and your chapter outlines to the best advantage. Your chapter outlines are your most important tool. They will be your friend, your guide, and your map to your story. Use your map and you will not get lost. It will also discuss the value of unleashing your creativity by writing fast and not editing as you go. Writing and editing use different parts of the brain; you should not try to do both things at once. Write now, edit later. You will also be reminded of the need for continued planning and commitment. You need to maintain your motivation, and you must commit yourself to a time to write.
