DOCUMENTATION AND ASSESSMENT OF THE TRANSPORT PROPERTY MODEL FOR MIXTURES IMPLEMENTED IN NIST REFPROP VERSION 8.0

Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 52 pages. Dimensions: 11.0in. x 8.5in. x 0.1in. In this report, the authors describe an extended corresponding states model for viscosity and thermal conductivity of mixtures implemented in Version 8 of the NIST computer program REFPROP. The model is a modification of a one-fluid, extended corresponding states (ECS) model for thermal conductivity and viscosity originally developed by Ely and Hanley. The authors apply the model to selected mixtures representative...
